INFINITY BASIC, BLAZON AND ELLIPSIS.

Infinity Basic is a system in square format making it possible to match static and paperflex signs both horizontally and vertically. But who says that signs always have to be rectangular? With Infinity Blazon and Ellipsis, different shapes are available. You also have the opportunity to create your own customized dimensions and shapes. There are unlimited possibilities and with the use of graphic features you can create a 100 % personal sign supporting the design

Infinity Classic product line consist of:

- > Wallsigns
- > Suspended signs
- > Projecting signs
- > Paperflex signs
- > Desk signs
- > Floor signs
- > Monoliths

BASIC INTERIOR.

Basic Interior Bond includes a broad assortment of ACM panels. The white surface combined with our print technologies makes it possible to create interesting graphic solutions for wall-mounted, projecting and suspended signs. The Basic Interior Steel and Safety Signs lines are also on offer.

Basic Interior product line consist of:

VIA INTERIOR.

The Via architectural signage system, designed in collaboration with international architecture firm C.F. Møller, is a simple interior and exterior system. Providing a flexible modular system it can easily be adapted to complex wayfinding schemes in healthcare, education, leisure and transport hubs.

The Via architectural signage system includes illuminated/non illuminated signage for both interior and exterior with flexible fixing systems adapting to building requirements including suspended (single or double sided), projecting, monoliths, wall and door signs.

Via Interior is an obvious choice for modular suspended or wall-mounted signs. The signs can easily be joined vertically or horizontally and are easy to install, update and clean. A complete series, VIA offers orientation, directional and identification signs. The look remains the same with or without LED lights.

Via Interior product line consist of:

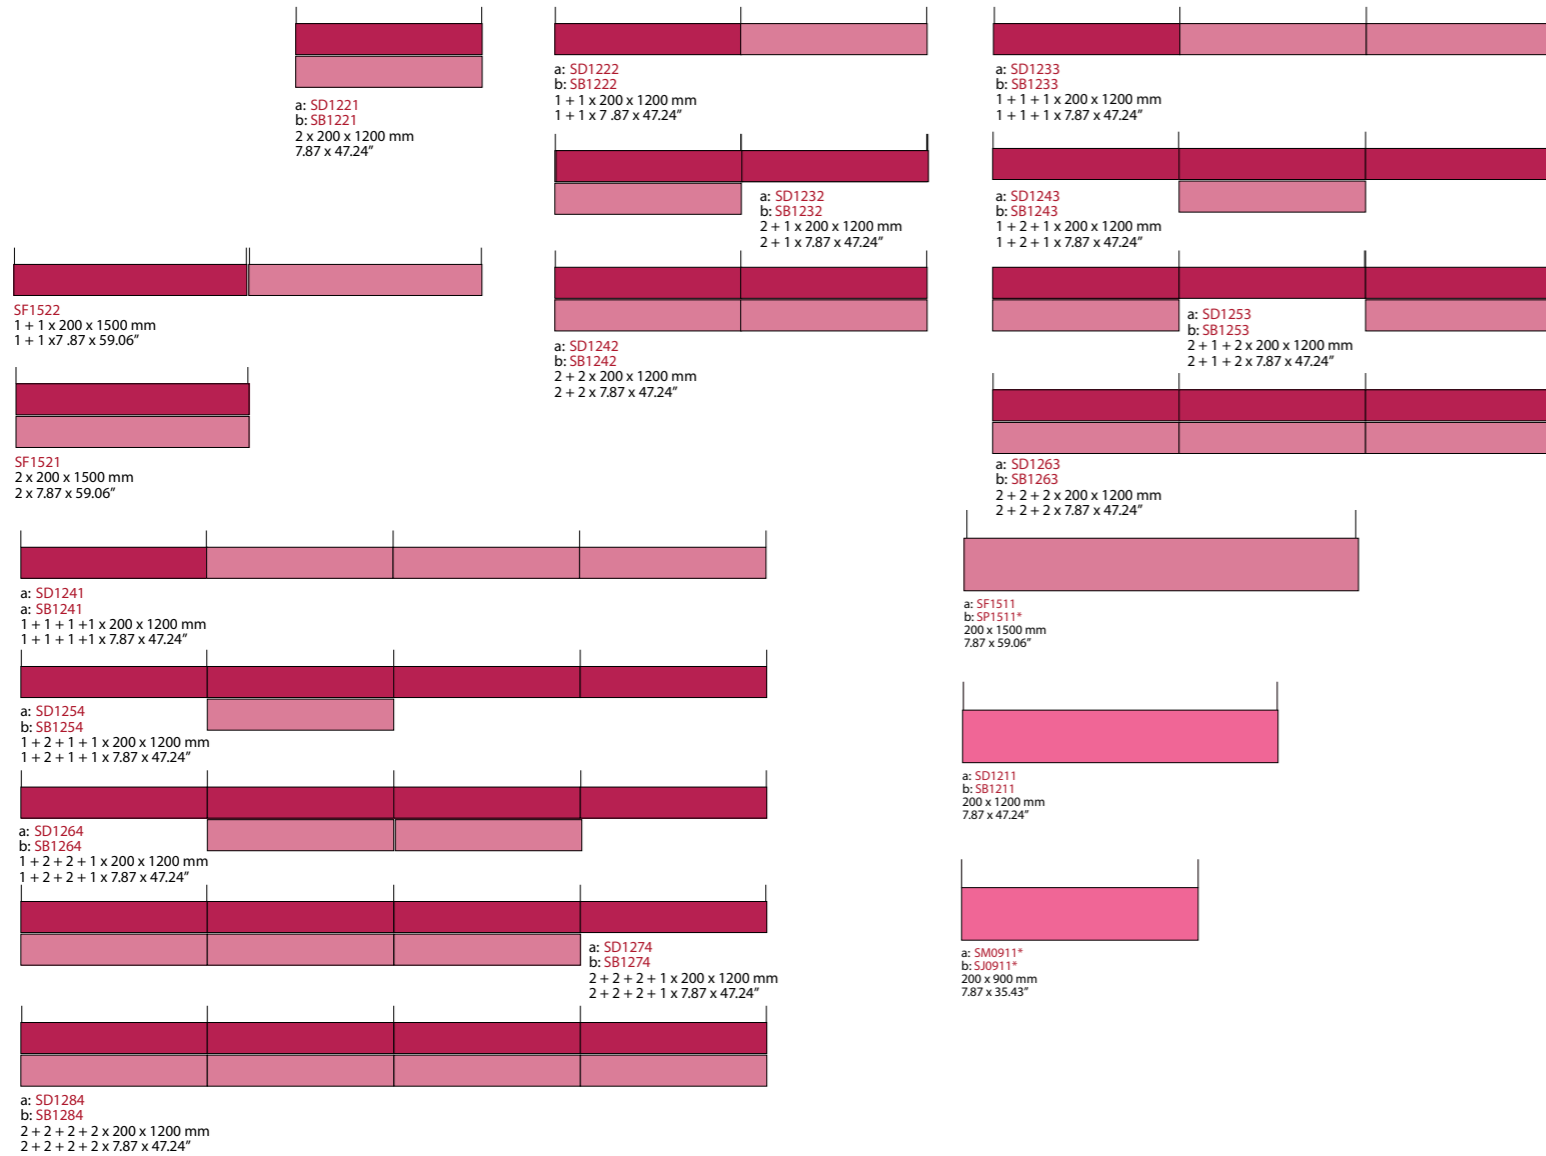

- > Wall signs
- > Suspended signs
- > Projecting signs

ETRONIT.

Etronit is a material made of FSC® and PEFC® paper from Nordic forests infused in synthetic resin and put together under extreme pressure and heat, that combines environmental consciousness with high-end aesthetics.

This eco-friendly signage material has a carbon footprint 53 % lower than acrylic and 41 % lower than aluminium composites (ACM).

With its focus on sustainability and innovation, Etronit is a green signage material with unmatched ecological standards: Sustainable source and cleaner production combined with an outstanding and timeless design.

Etronit is a very versatile product allowing signs anywhere from 30mm x 30mm to 1200mm x 2400mm

Etronit sign product line consist of:

- > Wall signs
- > Logo Letters
- > Custom signs

GREENBOND™.

Made of FSC® paper and polyester film, this material is a standard UV-printable material. As its name indicates, GreenBond™ has been developed as an alternative to aluminium composite (ACM) signs.

It has identical applications and resemblance to ACM but has a carbon footprint 41 % lower. Therefore, it covers a huge gap in the signage market as an eco-friendly and versatile product with possibilities equal to those of ACM.

GreenBond™ Interior product line consist of:

WALL SIGN

Wall sign backside with tape

SIGNS FOR THE VISUALLY IMPAIRED.

Raised text and braille can be applied to nearly all standard Interior and Exterior sign products allowing users to create a coherent design which integrates braille and non braille signs without compromising the overall aesthetic of the signage scheme.

In order to support the needs of visually impaired visitors it is also advised that signs be produced with good contrast between letters and background, which should also contrast well with the background upon which it is mounted.

Tactile characters from Modulex are typically raised by 0.8 mm [0.0315], sufficient to support the requirements of visually impaired users.

SAFETY SIGNS.

Complying with the necessary requirements for public safety signage can be a quick process when selecting from the extensive range from Modulex. Whether you require evacuation signs, fire equipment signs or warning signs you can select your preferred fixing option from wall mounted, projecting and suspended.
